The image shows a macOS terminal window with a title bar containing a home icon, the text "joe — -bash — 91x30", and window control buttons. Below the title bar are two tabs: the first is labeled "~ — -bash" and the second is labeled "~/Desktop — ssh • ssh yavin". The terminal content shows a prompt "joes-MacBook-Air:~ joe\$" followed by the command "echo 'I clicked on 'add' to make turkey show up'", the output "I clicked on 'add' to make turkey show up", and a final prompt "joes-MacBook-Air:~ joe\$" with a cursor.

```
joes-MacBook-Air:~ joe$ echo "I clicked on 'add' to make turkey show up"  
I clicked on 'add' to make turkey show up  
joes-MacBook-Air:~ joe$
```

The image shows a macOS Terminal window with a title bar containing a home icon, the text "joe — -bash — 91x30", and three window control buttons (red, yellow, green). Below the title bar, there are two tabs: the first is labeled "~ — -bash" and the second is labeled "~/Desktop — ssh • ssh yavin". The main content area of the terminal displays the following text:

```
[joes-MacBook-Air:~ joe$ echo "didn't do anything on next screen"  
didn't do anything on next screen  
joes-MacBook-Air:~ joe$ █
```
